ACCREDITATION

Baylor University is accredited by the Southern Association of Colleges and Schools Commission on Colleges. Individual colleges and programs are accredited by appropriate professional organizations. Information about accreditation is listed in the University catalogs.

CREDIT HOURS

The University's coursework, including any that appears on the transcript under a term heading that refers to a quarter term, is measured in semester credit hours, except for the Law School, which measures coursework in quarter credit hours.

REPEATED COURSES

When a course is repeated, all courses and grades appear on the transcript. Grades for repeated courses taken will be marked in the Repeat Column (labeled RPT on the transcript) with either the letter E, indicating that the grade is Excluded from the calculation of the GPA, or the letter I, indicating that the grade is Included in the calculation of the GPA. Courses that do not contribute grade points to the GPA (such as courses with zero credit hours, credit/noncredit courses, and courses taken pass/fail) may also be marked with the letter I, indicating that the course was Included for credit in each marked instance.

In the case of law students, the second occurrence of a course can earn a maximum of 2.00 grade points for the calculation of the GPA. In such cases, any grade earned above a C will be marked with an asterisk next to the grade to indicate that only 2.00 grade points were awarded. More information on current and past course repeat policies may be found in the appropriate catalogs.

ACADEMIC ELIGIBILITY TO REENROLL

The student is considered to be in good academic standing and eligible to reenroll unless otherwise noted.

NON-ACADEMIC/NON-FINANCIAL ELIGIBILITY TO REENROLL

Pursuant to Texas Education Code Section 51.9364, the notation “Ineligible to Reenroll” is placed on the record of those students ineligible to reenroll at Baylor University for a reason other than academic or financial. All inquiries regarding this notation should be directed to Baylor University Student Conduct Administration (254-710-1715).

VALIDATION

GRADES, GRADE POINTS, AND GPA CALCULATION

The grade point average (GPA) is calculated by totaling the number of grade points earned and dividing by the number of credits applied toward the GPA. The resulting GPA is truncated following the second decimal place (e.g., 1.99672=1.99). The University does not round the GPA. This method of calculation is used for all academic purposes, such as academic standing, graduation, and scholarship eligibility.
